

GERMANY DENIES MAKING NEW REPARATION OFFER

BLACK HAND GANG IN THE EAST IS SMASHED

SCRANTON, PA., May 4.—With 10 alleged members under arrest, local and state police expressed the belief today that they had broken up one of the most menacing black hand gangs that ever operated in this section of the state. All of the prisoners were held in heavy bail after hearings before a magistrate. Five of them turned state's evidence and recited on the witness stand some of the alleged practices of the band.

Headquarters of the gang, according to the informers, was maintained at Carlisle, Pa., and men were sent out from there to perform black hand missions in many sections of the east. Its efforts, they told the authorities, were not centered on extorting money from citizens, but its members also engaged in robbing freight cars and business places.

Breaking of the oath of loyalty to the gang, was said to mean death to the offender. Michael Eirin, said by the police to have been a member of the band, was slain last night because, the authorities declared, he was suspected of being an informer. Gisenti Mazareno, of this city, is under arrest charged with the killing.

Women Win At The Polls

SISTERSVILLE, W. VA., May 4.—Women voters of Sistersville have won their first victory at the polls. When citizen ticket candidates for two seats on the school board were named, the women voters asked that one of their sex be placed on the ballot. Their appeal was fruitless, however, male candidates being approved.

The city election was held yesterday and before the polls opened many women workers were on the job, urging that the female voters cast their ballots for Mrs. Thomas Bell. Practically all the women voters of the city passed up the male candidates and wrote in the name of Mrs. Bell, who was elected to the board by a two to one majority over her nearest opponent.

Will Not Affect Independents

YOUNGSTOWN, O., May 4.—Reduction of wages by the United States Steel Corporation, announced late yesterday, will have no effect on the wage policy of the independent steel companies, manufacturers said here today.

Wages and prices of both independent and corporation are now on the same level. The independents cut wages 2 percent three months ago. Recently they raised prices to the same level to which the corporation reduced its prices a few days later.

Polish Army Takes Upper Silesia And Continues Advance

OPPELN, UPPER SILESIA, May 4.—Organized Polish forces, estimated at 20,000, have occupied all of Upper Silesia south of a line running from Kassel to Tarnowitz, with the exception of a few large towns, and are moving further northward, according to information supplied by a member of the inter-allied representation here.

Homes In Peril As Lake Michigan Eats Into The Bank Beneath Them

The above photographs show the damage caused by Lake Michigan undermining the cliffs south of Milwaukee. The picture at the left shows a home perilously near the brink. The one at the right shows how the lake already has claimed part of a home.

MILWAUKEE, WIS., May 4.—The homes and property of five families on the lake shore just south of the south limits of this city are in imminent danger of toppling into the lake from the brink of a hundred foot precipice due to caving of the bank.

Covering a stretch of nearly three hundred yards on the south edge of the city, the houses and outlying buildings are being undermined as large segments of the high bank are breaking loose and catapulting into the lake nearly a hundred feet below, (all only a few feet remain between the brink and the back of the buildings).

One family has been forced to move out, leaving their household goods behind because the continued caving has made imminent the hour when the entire house will crash over the ledge and disappear in the waters of Lake Michigan.

The edge of the bank on one night was twenty-one feet closer to the rear of the houses than it was when the caving began that morning.

The twenty or more persons whose homes are in danger of demolition are totally helpless.

The property, which runs within fifty yards of and parallel to the lake shore, is said to be worth \$125 the running foot.

Plows Up Gold

LANSING, IOWA, May 4.—Fortune turned her smiling face on John Brazell, of Lansing, when the plow which he was operating unearthed \$1300 in gold. The sum was found on the old Patrick Callahan farm, where Brazell was working as a farm hand.

The money was in a glass jar and the small fortune is believed to have been buried on the farm for an indeterminate number of years.

Briton Beats American

LONDON, May 4.—E. M. Baerlein, the British court tennis champion, successfully defended his title against S. Sydnam Cutting, the American challenger at the Queen's Club here today, defeating him in three straight sets.

The scores were 6-3, 6-4, 6-4.

Cutting had sensationally vanquished all his opponents in the matches to decide who should meet the champion in the final contest for the title, but Baerlein's steadiness and brilliant play were too much for him.

U. S. DETERMINED NOT TO ASSIST GERMANY AGAINST ALLIES

BY DAVID LAWRENCE

(Copyright, 1921, by Times Pub. Co.)

WASHINGTON, May 3.—The United States Government has notified Germany that she can expect neither aid nor comfort from the Harding administration in the controversy over the payment of damage done in the war.

This, in effect, is the plain meaning of the note dispatched by President Harding and Secretary Hughes advising Germany not only that her recent reparations offer made through the medium of the United States was unacceptable even as a basis of discussion but telling Berlin to negotiate directly hereafter with London and Paris.

Berlin Aroused Americans

What particularly aroused the folks was the cablegram from Berlin to the effect that Germany would pay no attention to the Allied conference in London on last Saturday so long as the door to the White House was open.

The Germans hoped for American diplomatic intervention as a means of splitting the Allies or at least softening the French demands. But the Harding administration, sensitive about the loyalty of certain Americans, German descent who have been telling Berlin that as soon as the Wilson administration passed out of power President Harding would prove himself a friend of Germany as opposed to the Allies, has taken occasion to remove any doubt concerning the administration's pro-Allied stand. So determined is the United States to range itself alongside the Allies in the reparations controversy, that the White House has again and again asked the press to emphasize the point.

Uncle Sam Turns Down Role of Empire

The new development really is the decision to return the German note unanswered and the notification to Germany to conduct her negotiations with the Allies direct. This refusal on the part of the United States to act either as an umpire or mediator or even as a messenger of communication pleases the Allies more than they dare publicly express. They do not want to read in the American action more than

Shank And Ralston Win In Primary

INDIANAPOLIS, IND., May 4.—Nomination of Samuel Lewis Shank as the Republican candidate for mayor at the primary election held yesterday was indicated today when 145 of the city's 165 precincts had been officially reported.

Unofficial tabulation of these figures gave Shank a lead of 600 votes over Thomas C. Howe, his nearest opponent. Edward J. Robinson was in third place.

The nomination of David M. Ralston for mayor on the Democratic ticket was assured. Tabulation of 100 precincts indicated that he would have about four votes to one of his nearest opponent, Edgar A. Perkins.

NOMINATIONS CONFIRMED

WASHINGTON — Senate confirmed nominations of E. L. Lewis, Indianapolis, and James B. Campbell, Spokane, Wash., to the interstate commerce commission.

The senate voted to recommit the nomination of David H. Blair, Winston-Salem, N. C., for internal revenue commissioner.

WOMEN APPOINT MERE MEN

COFFEYVILLE, KAN., May 12.—The newly elected mayor and city council of Thayer, Kansas, one of the first entirely feminine city administrations ever elected in the country, last night returned the compliment to the men responsible for their honors. J. Dunsmore, dubbed "the bald hornet of the Nesbitt," in the Populist party days when he served as speaker of the insurgent house of the Kansas legislature, was appointed city treasurer. In view of the "strenuous program" expected to be adopted, especially in the matter of civic cleanliness, a young man was selected as marshal.

Fehrenbach Cabinet Awaits Ultimatum

LONDON, May 4.—A German official dispatch from Berlin this afternoon says there is no foundation for the report that Germany has made a new reparations offer to the allies.

LONDON, May 4.—Reports that new German proposals relative to the reparations question had been received, which were current in this city last night, were denied this morning by Louis Loucheur, minister of liberated regions in the French cabinet, and one of the principal figures in the French delegation attending the meeting of the supreme allied council.

Want U. S. Represented

WASHINGTON, May 4.—Possibly that the influence of the United States in reparations settlements with Germany had not ended with the despatch of Monday night's communication returning the counter proposals to Berlin was seen today in the invitation of the allied supreme council to have American representatives among its members as well as on the reparations commission and council of ambassadors.

An official statement of the American position is expected when the invitation is formally received here. When questions on the subject have been broached herebefore, officials invariably replied that it would be early enough for an answer when an invitation was extended.

The American government under the Wilson administration was for a time represented officially on the reparations commission and unofficially by observers before the council of ambassadors, but never on the allied council. Whether the Harding administration from its interest in the economic adjustments in Europe will decide to accept the invitation in any form was the question in which interest centered today.

German Cabinet Faces Crisis

BERLIN, May 4.—The German cabinet met this forenoon in anticipation of discussing developments at London. A meeting was held yesterday, but no action was taken relative to the reparations problem.

Just how long the Fehrenbach cabinet will continue in office is believed to depend on the nature of the ultimatum being sent to Berlin by the allies, and the attitude assumed by the Reichstag.

While the Berlin government was not unprepared for the answer contained in the American state department's reply to Foreign Minister Simons, both the foreign minister and his colleagues in the cabinet had hoped that Secretary Hughes' answer would be a trifle more precise in indicating the American interpretation of "clear, definite and adequate proposals."

To this extent the American answer left the cabinet in a confused state of mind, it was stated.

It was also observed that the note failed to suggest the amplification of the German offer, for which it was considered a ready basis, had been provided in the German suggestion that President Harding's query lack for elucidation of the offer provided he believed the proposals as first submitted were unsuitable.

"We are not clear in our minds just what the United States government means in connection with its suggestion that we make direct proposals," the government's spokesman declared.

"We would have welcomed most heartily any positive suggestion from Washington and would have been equally anxious to carry it out. The present reply, however, is doubly negative in that it fails to give us even a cue or suggestion as to how our counter proposals might have been amended or wrought into a suitable instrument for fresh negotiations."

To Receive Ultimatum

LONDON, May 4.—Members of the allied reparations commission were in this city today to receive from the supreme allied council the ultimatum to be sent to Germany, which was considered to be the final word of the allies on the reparations question. Immediate despatch of the document to Berlin was expected.

The supreme council reached an agreement yesterday regarding the details of the ultimatum, and the drafting committee was busy until late last night in completing the document, which was ready for presentation at today's meeting of the council.

Summers were current in this city last night that Germany had presented new reparations proposals through Dr. Stimson, the German ambassador, who paid a call at the British foreign office. Nothing authoritative was learned regarding the subjects discussed during his visit.

U. S. Invited

An invitation has been sent to Washington, inviting the United States government to appoint a representative who will act as a member of the supreme council. The United States is also requested to name delegates to the reparations commission and the council of ambassadors. This was, probably, the most useful piece of

90 Moros Killed In Battle In The Philippines

MANILA, P. I., May 4.—Ninety Moros, including Maharajah Untong, a religious fanatic leader, were killed Sunday by a detachment of Philippine constabulary in an engagement near Taglibi on the Island of Sulu, 500 miles from here, according to advices received today at constabulary headquarters.

The slaying of the Moros followed the murder Saturday of Lieutenant D. Velasquez, and three constabulary troopers. After killing the four men the Moros took their guns and escaped. All available constabulary forces of the department of Mindanao, stationed on Zulu Island, were despatched in pursuit of the Moros, overtaking them near Taglibi.

In the battle following virtually the entire band of Moros was wiped out. The constabulary forces recaptured the guns taken from their murdered companions. One constabulary man was wounded in the battle.

CHICAGO, May 4.—A wage reduction of \$1.35 a week for each of the four major printing crafts in Chicago was announced today by an arbitration board, four members of which were chosen by the employers, four by the unions and a ninth selected as an arbiter by the others.

Under the decision compositors were reduced to \$46.65 a week, pressmen to \$47.65, feeders to \$36.65 and book binders to \$42.15.

This scale applies specifically to a week of 48 hours, according to Harry W. Cantrell, commissioner of industrial relations for the Franklin (closed shop) division of the Franklin typographical union of Chicago.

Machine Gun Placed to Sweep Betting Ring

CLYDELAND, O., May 4.—The discovery of a machine gun in a closed automobile and placed so as to sweep the betting ring at the Chagrin Falls race track was made late yesterday by Sheriff Charles B. Stannard, while the races were being run, it was announced by the sheriff's office today.

The weapon, fully loaded, was in the possession of special deputies employed by Mayor George L. Burton. It was said, and was to have been used to quell any possible riot that might have followed attempts of deputies to prevent betting.

There was no trouble at the track, two races being run off without betting pending the outcome of injunction proceedings. Following the issuance of the injunction by Common Pleas Judge Foran against the use of the mayor's deputies, wagers were placed on the remaining races on the program. Judge Foran held the present ordinance invalid, whereupon Mayor Burton announced the village council would meet today in an effort to legalize the use of special deputies.

About half of the jurors were understood to have been in favor of acquitting the self-confessed bond thief.

16 HORSES MAY RACE FOR RICHEST STAKE IN U. S.

LOUISVILLE, Ky., May 4.—Sixteen horses are regarded likely to start in the forty-seventh renewal of the Kentucky Derby here next Saturday. Thirteen, in the opinion of turf writers, will be given top impost of 125 pounds and the remainder will likely carry 121 pounds in the struggle of a mile and a quarter for a stake which carries \$50,000 in added money.

Recent work-out of Derby candidates and performers in races at Lexington today moved sport writers and turfmen largely to agree that the probable Derby contenders would include:

Horse	Owner
Tryster	Harry Payne Whitney
Leopold II	Harry Payne Whitney
Black Servant	B. F. Simms
Black Servant	B. F. Simms
Behave Yourself	E. H. Bradley
Careful	W. J. Salmon
Grey Lag	H. P. Sinclair
Coyne	Harold Brothers
Ueda Veto	Baker and Moore
Minkalouge	H. C. (Bub) Fisher
Star Veto	C. A. Stenohim
Nancy Lee	J. K. L. Ross
Star Veto	P. A. Clark
Baby Grand	J. K. L. Ross
Touch Me Not	Greentree Stable
Black Servant and Behave Yourself	

breeded the full Derby distance in a trial today in 2:11.35. Star Veto worked a half mile in 49.5-3, which was regarded as an impressive try-out. Tryster and Brompsn worked a mile and a quarter together, the former finishing well in advance of his stable mate in 2:12.5. Prudery went a mile in 1:47.4-5 and finished well in hand.

The stake is the richest on the American turf. To the winner it will be worth more than \$35,000; to the owner of the second horse will be paid \$10,000. The third \$5,000 and the fourth \$2,000.

FACE ELECTROCUTION FOR MURDER

COLUMBUS, O., May 4.—Dick Howell, Canton, and Charles Reichfeld, Sandusky face electrocution for first degree murder, following confirmation by the supreme court late yesterday of their death sentences. At the same time the court remanded for a new trial the case of Louis Clifford Shelton, Hamilton county, who has been in the death chamber at the penitentiary for nearly two years pending appeal of his case through the courts.

Howell was convicted of the killing of Anthony Skotnicki, Canton, plain clothes policeman, November 20, 1919. He claimed the court had erred in charging the jury as to whether recommendation of mercy should be given in allowing the prosecutor to argue that mercy should not be extended.

Reichfeld, convicted of killing Dr. Horace A. Benson, Norwalk, Ohio, sought a new trial on insanity grounds, but was refused.

The Hamilton county court was reversed on the ground that Shelton's attorney was not allowed to argue for recommendation of mercy. Shelton was convicted of the murder of William H. Dietz, Cincinnati policeman, August 28, 1918.

HOW TO RAISE BABY CHICKS

Put Avicol in the drinking water

Most people lose half of every hatch, and seem to expect it. Chick cholera or white diarrhoea is the trouble. The U. S. Government states that over half the chicks hatched die from this cause. An Avicol tablet in the drinking water will save your chicks from all such diseases. Within 48 hours the sick ones will be lively as crickets. Mrs. Wm. May, Reno, Ind., writes: "I was losing 10 or 15 chicks a day from diarrhoea before I received the Avicol. I haven't lost a one since." It costs nothing to try Avicol. If you don't find that it prevents and controls white diarrhoea, chick cholera, and all bowel diseases of poultry, tell us and your money will be promptly refunded. Avicol is sold by most druggists and poultry remedy dealers, or send 50c (includes war tax) for a package by mail postpaid. Burrell-Dugger Co., 100 Columbia Bldg., Indianapolis, Ind.

Since you are married to the man, you should not question the difference in ages. If you think you are unsatisfied, you should have given marriage more thought before you consented to be his wife. The principal thing in marriage is the congeniality of each one. Wear your hair in the most becoming way, regardless of fashion. I do not think it is a sin for one to use rouge and powder, providing that one uses it with discretion, and not too heavily. Govern the length of your dresses according to your height; eight inches from the floor is the average length.

Catsup—To five quarts of juice add one tablespoon black pepper, one tablespoon cinnamon, one-half tablespoon dry mustard, dissolved in two tablespoons water, one and one-half pint vinegar.

Wash tomatoes in cold water, cut up and ball soft; put through strainer. When cold add all above but sugar. Let come to boiling point, add sugar, then cook until three-fourths of catsup is left.

Bottle while hot or put in quart jars and seal. One peck makes four quarts of catsup.

Dear Miss Wise—After looking over the old cannon in Tracy Park, I am wondering who had them painted their present color. Shouldn't they be painted black? In the period they represent they were painted black and their present color seems an anachronism. Should we go to monuments and art galleries and garb Caesar's legions in khaki or put our round cannon-fanged trench helmets on the heads of Achilles and Hector?

PHILOSOPHER.
The present color would rather irritate the artistic natures of most persons, but what can be done about it? If Caesar's legions or Achilles, or Hector or any of the others were

Your Manners

IT IS CORRECT

For a woman in mourning to refrain from taking part in social gatherings as long as she wears crepe.

For a woman in mourning to call upon her friends on days other than that which is their day at home.

For a woman, after six months of mourning, to attend concerts and reunions.

For a woman in second mourning to attend small dinners, luncheons and the theatre.

For men to attend small dinners, luncheons and the theatre after two months of mourning.

IT IS NOT CORRECT

For a woman wearing crepe to attend even small dinners or luncheons.

For a woman to take up her accustomed round of social duties until she has put off mourning entirely.

For a woman to receive any but relatives or close friends before three weeks after the loss of a near relative.

For women in mourning to have a day at home.

For a woman in second mourning to appear in a box at the theatre. She may, however, occupy an orchestra seat.

BILLY WALKER

FRANCIS TREDD MONTGOMERY

The next day the two runaways entered the city and walked carefully along to where the side ships came in, to watch for a chance to board one and get carried, if possible, to America.

While they were hiding behind a pile of boxes and bales of tea, a fine looking steamer came to anchor at the end of the pier and Stubby read on her side the name Sultana. While he was making out the name Billy Jr. stopped chewing his cud and fastened his eyes on a big black cat that was walking along the railing of the ship's deck and exclaimed in surprise:

"It is! As sure as I'm alive!"

"Is what?" asked Stubby.

"Why, Button!"

"Whose button? What button are you talking about?"

"I don't mean a button you use on clothes, but that cat you see walking on the railing. If I am not very much mistaken, that is Button, the same black cat that was on the vessel on which Day and I sailed into the harbor of Constantinople years ago. I was only a kid and Day, my sister, was with me. There could not be another such big, black cat with such yellow eyes, as that cat had, and this one is the exact image of him, so it must be Button himself. I am going up close to the vessel and find out. If it turns out to be Button, I am going aboard and speak and if I do you follow. You will be very fond of Button, for he is a dandy, and as sharp as a paper of tacks."

As there was no one looking, Billy Jr. slipped on board, and he and Button disappeared, but not until Billy Jr. had turned and nodded his head for Stubby to follow.

As the good ship Sultana sailed through the Golden Gate into the harbor of San Francisco, Billy Jr., Stubby and Button began to wonder what their fate would be when landing and where they would go first. They wanted to keep together, but they knew it would look strange for a big black goat, a little yellow dog and a huge black cat to be seen trotting along together.

So they decided that the best thing to do on landing would be to separate, but keep track of each other. For instance Billy Jr. would walk up one side of the street while Stubby trotted along on the other, and Button could run on top of the fences or in and out of the yards and doorways.

They had also taken a vow that as long as the green grass grew upward they would stick by each other. In time of trouble, and if one got shut up that the other two would not leave until he was free.

The vow was sworn to by their rubbing their noses together.

(But they have a hard time keeping their vow.)

Mrs. C. A. Burnett, the hostess of the delightful meeting of the J. K. K. Club on Monday evening, was given a beautiful hummer salver-bling-dish by the members. A tempting salad course was served by the hostess at the close of the meeting.

The registry will be held open for those who wish to sign up as charter members, and all who expect to be asked to do so as soon as possible. A brief business meeting preceded the program and refreshment course. Miss Grace Jones of Third street will be the hostess of the next meeting, the first Tuesday in June.

In celebration of her birthday anniversary, little Miss Christine Russell entertained a number of playmates Tuesday afternoon at her home on Jackson avenue. Her mother, Mrs. Joseph Russell, arranged various amusements for the youngsters, among them a sidewalk game, and a peanut hunt. Nellie Goldenman was given a box of candy for finding the most peanuts. Pink rosebud baskets were given as favors, and ice-cream, candies and nuts were served, the big birthday cake, a gift to the little hostess, being cut for the occasion.

The members of the Independent Order, Paul Smith, Portsmouth Lodge 840, will meet Thursday night, May 5, at 7:30, new time. All members are asked to be present for the initiation of candidates.

The infant daughter of Mr. and Mrs. Geo. Hauf of Third street was christened "Ethel Rosa Mary" at St. Mary's church Sunday afternoon by Rev. T. B. Goebel. The sponsors were Miss Sadie Hauf and Mr. Jacob Hauf, uncle and aunt of the child.

Close to 750 members of the local Order of Eastern Stars were in attendance at last night's meeting when a class of fifteen candidates were admitted by initiation. The degree work was exemplified in a manner that brought praise from the large number of members present. The business and initiatory work was followed by a banquet and an enjoyable social hour.

A WIFE IN THE MAKING

BY PHYLLIS PHILLIPS

CHERRY MAKES TWO FRIENDS

Cherry paid a visit to the garden, the stable, and last but not least to Jack's pet rabbit hutch. Here she held some dozen or more lively young rabbits. In various stages of development, from the wisest-eyed granddaddy and grandpa to the very tiniest and fluffiest members of the family, Jack explained that these animals were his hobby.

"Feller's gutter have some sort of a hobby, you know, to keep him happy. It's awful dull round here sometimes. Sister Cherry, guess you'll find that out for yourself 'fore long, and when I'm all through with school and when I run down here and have a good time by myself with the rabbits."

Cherry nodded, sympathetically, as she listened, and was loud in her praise of the wonderful and intricate wire cage that Jack had erected for his pets. From the rabbit patch they proceeded to the small pond, which nestled intimately at the very end of the big garden, and lost "self" some distance away in the pretty little woods that lay beyond the grounds. Jack explained that on one or two occasions he had caught a "sunny" or two in his devious depths, but as a rule it was only good to look at or fall into when a person was very warm.

After an inspection of the old-fashioned garden, which delighted Cherry, they passed on to the vegetable garden and found Aunt Phoebe there, busy picking out and radishes for dinner. She straightened up and mopped her perspiring black brow, as she caught sight of the two and invited Cherry to come see the wealth within.

"Them 'll' ban's of yours ain't never pulled no roots out of the ground, I kin tell, Miss Cherry," she remarked, looking approvingly at Cherry's small, white hands. "But, let's here in Woburn every one has naturally goes into the garden and d'ez around' and soon dey's all brown and horny, and neral thinks no mo' 'bout 'lly-white hands forever after."

Mr. and Mrs. L. P. Haldeman and daughter, Miss Eleanor, of Gallia street, have returned from a visit with Mr. and Mrs. N. E. Whitaker of Wheeling, W. Va., leaving Miss Helen Haldeman for a longer stay.

Having spent a delightful winter in Miami, Fla., Mr. and Mrs. D. L. Williams of Fourth street returned home last evening. Mr. R. F. Vincent, of Fifth street, who has been spending the past few weeks there, returned at the same time.

"Gracious me!" laughed Cherry at this solemn announcement, or was it warning? "I suppose that this time next year, then, Aunt Phoebe, my hands and face will be the color of leather, and I'll be spending all my pocket money for lotions to try to take the freckles away."

"Ah, speels you will, Miss Cherry. An' right here I mean tell you that there's no lotions what takes them away, not the Woburn kin', honey. Nuthin' c'd do dat, now! They're regularly burnt into de skin. Ah doesn't want to be mournful with you, an' there ain't no cause, for you'll get used to it, like the rest of the white folks."

"Well, two as 's quite sure of," he corrected politely, imitating Aunt Phoebe.

"And they are?" asked Cherry, smiling a little.

"Aunt Phoebe and yours truly," said Jack solemnly. "An' we sticks when we likes someone, an' dat's de truf."

HOW IRON STARVATION OF THE BLOOD RUINS A WOMAN'S HEALTH—

AND MAY MAKE HER WRINKLED, AGED AND CAREWORN, GIVING HER FACE A PALE, HAGGARD, SICKLY APPEARANCE

You want of iron you may practically be an old woman at 30 to 40 years of age. You may be in such a highly nervous irritable state that you "go all to pieces" on the slightest provocation, while at 50 or 60 with good health and plenty of iron in your blood, you may still be young in feeling and so attractive and full of life as to defy detection of your real age.

It is not always the youngest woman that is most sought after—there is an insupportable allure in the sparkling eyes of a blood filled with iron. You may be afflicted with iron starvation of the blood and not know it. Just as thousands of other women are.

It is said that about one person in three in America today suffers more or less from malnutrition—lack of nourishment, which is caused not by lack of food, but in many cases, by lack of sufficient iron in the blood to enable you to get the strength and nourishment out of your food.

Indoor life, overeating and modern methods of cooking are sapping the iron from the blood of hundreds of thousands of women. Our forefathers, to whom history refers as a nation of red blooded Americans, ate the husks of grains and the skins and peels of veg-

Speaker To Explain Red Cross Work As Carried On In Europe

The program at Trinity M. E. church Sunday afternoon at 2:30, new time, will feature a crowded auditorium. Mrs. Vaughn Finney will preside at the occasion with Major Roy Finney at the piano. Mrs. Samuel Thompson will direct a congregational sing. A male quartet and a vocal quart will also be interesting features. The city and county folk who failed to hear Royal Clyde Agne, Asst. Director of Rural Service for the Cleveland Lake Division of American Red Cross, will miss an event of note.

Mr. Agne, a live wire, and a real

entertainer, will portray facts concerning his work, since his return from the war devastated countries of Europe. Nearly two years have been spent in the organization of rural districts of Clark and Muskingum counties. He is peculiarly fitted for this work as he is not only a graduate and teacher of Heidelberg University, but also of Columbus University and McCormick Seminary.

ATTENTION

The Engineers and Firemen of Scioto county are invited to attend a special meeting of the National Association of Stationary Engineers on Wednesday evening next (May 4), at the Macedonia hall, Sixth and Chillicothe streets, as questions of vital importance to all operating engineers and firemen will be discussed by the following speakers: Richard W. "RECLAIMING THE HOLY LAND"

The address of Royal Clyde Agne on Sunday night at the First Presbyterian church promises to be one of the most interesting events of the kind this winter in Portsmouth. The Great War has called the attention of the world to the land of Palestine as it had not been drawn for many years, and we will have from the lips of Mr. Agne, a description of that land of enduring interest, and of the marvelous work that has been done to transform it into a really habitable region.

Mr. Agne is singularly fitted to bring such a message through his wide experience in Red Cross work, not only in Palestine and Syria, but in Russia and other parts of Europe during its most bitter period.

As a speaker, Mr. Agne is bright, eager, thrilling; inspired, rather than depressed by the harrowing nature of his experience. The public is given a most cordial invitation to hear him Sunday night.

TRINITY CHURCH TO HAVE PLAYGROUNDS

Trustees of Trinity M. E. church have secured use of the Damarin lot on Gallia street, east of Offene and during the summer months will convert it into play grounds for members of their congregation. It will be equipped with all kinds of "play machines."

City Briefs

State Examiner Aaron Moul arrived in the city Tuesday and started work on making the annual audit of the accounts of the city water works department. It will probably require six weeks for the inspector to complete the task.

The Forum Steering Committee of the Chamber of Commerce is making an effort to have William Jennings Bryan speak at a special forum meeting that would be held Monday, May 10, or Tuesday, May 17, as he will be here for an address at the U. S. Church Monday night, May 10. Every effort possible will be made to gain his consent to speak at a C. of C. meeting.

When Mrs. Charles Burton, 3840 Gallia street, New Boston, appeared in Municipal court Tuesday and entered a plea of guilty to a charge of disorderly conduct, Judge Sprague passed her a fine of \$10, and warned her against future misconduct. The complaint which was filed by Mrs. Leona Saly, 2549 Ninth street, alleged that the defendant called at her home recently and raised a disturbance by calling her vile names and accusing her of being too chummy with her husband, Charles Burton.

A squad of officers from Camp Sherman, headed by Capt. Brian, came to town Tuesday night, and with the aid of the police rounded up a bunch of fourteen privates who failed to answer roll-call during the day, having jumped camp and came to the Peersless for a lark. The delinquents were as a consequence listed as A. W. O. L's on the camp register and they were transported back to Chillicothe this morning. The boys, who will probably be put on extra duty as punishment, gave their names as M. D. Siler, D. T. Bridges, E. D. Wheeler, F. Clavette, Ed T. Burke, W. B. Head, Win. Field, B. Haak, Frank Ferguson, Bernard Barnett, C. W. Jackson, J. V. Seogh and Wilford Hobbs.

George Gabbert, East End young man, was dismissed by Judge Sprague in Municipal court Tuesday because John Hannah, proprietor of a restaurant at Eleventh and Guttenberg streets, who made the complaint, failed to appear to press the charge. The men had a row Saturday night and Gabbert claimed Hannah precipitated the trouble by pulling his nose.

"BEAUTY CREATES HAPPINESS," SO SHE WILL AID BEAUTY

Mrs. Gouverneur Morris.

The philosophy of Mrs. Gouverneur Morris, wife of the noted writer, is that to make the world happy one must first make it beautiful. Acting on her creed she has opened a beauty parlor de luxe in New York. Patrons will rest in luxurious drawing rooms and sip tea served by trim maids while waiting for their "hour."

A Cheerful Note.

"All things are full of iniquity and vice; more crime is committed than can be remedied by restraint. We struggle in a huge contest of criminality. Daily the passion for sin is greater. The shame in committing it is less."

This is not the outcry of one who looks with alarm upon the organs of the producers, the operations of the auto landlits, the greed of landlits, and the pernicious activities of the grafters, gamblers, market manipulators and crooked politicians. It is the philosopher Seneca's description of conditions in Rome 2,000 years ago.

Old Letters.

"I never knew what sad work the reading of old letters was before that evening, though I could hardly tell why. The letters were as happy as letters could be. There was in them a vivid and intense sense of the present time, which seemed so strong and full as if it could never pass away, and as if the warm, living heart that so expressed themselves could never die, and be as nothing to the sunny earth. I should have felt less melancholy, I believe, if the letters had been more so."—Mrs. Gaskell, in "Cranford."

Cement for Glass.

For mending valuable glass objects which would be shattered by common cement, chrome cement may be used. This is a mixture of five parts of gelatin to one of a solution of acid chromate of lime. The broken edges are covered with this pressed together and exposed to sunlight, the effect of the latter being to render the compound insoluble even in boiling water.

Quality and Equality.

From a dramatic review: The play has one of the most evenly balanced casts we have ever seen—all rotten.—Boston Transcript.

SOCIETY

Mr. and Mrs. James Riddleberger of Low Run entertained Sunday with a wedding dinner honoring their son-in-law and daughter, Mr. and Mrs. George Laing (Saddle Riddleberger) whose marriage took place Saturday, April 23. Among those who participated in the happy event were Mr. and Mrs. Earl Simpson of Fourth street, Mr. and Mrs. Abe Denteel and children, Louise and Billie, of Lincoln street, Mr. and Mrs. Thomas Smith of Lanesville, Mr. and Mrs. Jeff Shack of Scioto Furnace, Misses Emma Riddleberger and Blanche Stratton and Clarence Riddleberger.

Mrs. Norman Dinevelt (Esther Miller) a recent bride and a member of the Bond Street School teaching staff, was honored with an attractively arranged luncheon Tuesday noon at the school. The party was arranged in the rest-room by the teachers, who presented the honoree with a handsome baking-dish of pyrex and silver, accompanied by an appropriate list of verses written by Mrs. A. C. Ross. A keepsie bride and groom formed a pretty centerpiece for the table, over which a canopy was formed of streamers of many colored butterflies. Those who enjoyed the happy occasion were Mrs. Minnie Steadly, Mrs. A. C. Ross, Mrs. Mary Bridges, Misses Harriet Scott, Kate Comins, Carrie Zottman, Gladys Wittenburg, Phillipina Yost, Edie Johnston, Beatrice Evans, Helen Cross, Jessie Gibbs, Mae Zimicker and Alice Comins.

At the meeting of the local chapter of the Order of the Eastern Star held last evening, twelve candidates were initiated. Following the business, refreshments were served and the remainder of the evening was spent in dancing in the ball-room.

Common Failing.

"Many a man," said Uncle Eben, "thinks he can tell you what you ought to do when he can't tell what he ought to do himself."

Health Hint.

Eat less meat and more fruits and vegetables, and you will have better health.

At the meeting of the Bigelow W. H. M. S. held Tuesday afternoon at the home of Mrs. Etta M. Walker on Fifth street, Mrs. E. C. McCoy and Mrs. R. D. Cunningham were elected delegates to attend the convention to be held at Sciotoville, May 12.

OSTEOPATHY

A half century ago, in the ranks of the Medical Profession was a man who began, in his own way, to question Nature. A discontent with drugs and an independent mind conspired to lead him into new lines of experimentation. His work was independent of tradition or precedent. From years of study and observation there came to him the knowledge of an underlying principle not before recognized. Soon the world began to hear of Dr. Andrew Taylor Still and of his new system of treating and curing disease without the use of drugs.

The cause of the rapid growth of Osteopathy, (as Dr. Still's system became known), is the cures effected, especially cures of cases where other systems had failed. Such has been the growth that millions of people, not only in the United States, but in every civilized country of the world, place their confidence and depend upon Osteopathic Physicians when sick. There are at present eight Osteopathic Colleges in the United States. The eight colleges have graduated over 7,000 students. Their educational standards are recognized as on a par with the Medical Schools of the country. In the laboratories of our schools experiments are made on dogs, cats, monkeys, etc., to prove Osteopathic theories. As an example a monkey is taken and placed under close observation for 6 to 10 weeks to be sure he is in the best of health. Provided he is normal in every way Osteopathic lesions are produced, under anesthesia, along different sections of the spine, at the Sacro-Illiac articulation, the heads of the ribs at their spinal articulation, and at other parts of the body as usually found by Osteopaths, and accepted by them, as the cause of disease. In a few days the animal would show signs of sickness. The pathological disturbance being governed by the location of the lesion produced. Such conditions as Goiter, Congestion of the Lungs, Liver, Kidneys, Bowel and Pelvic organs, enlargement of spleen, Tuberculosis, Neuritis, etc., have been produced in this manner. By correcting these Anatomical lesions the symptoms would invariably clear up and the diseased condition become normal. Research and experiments along this line are going on daily in our schools. By this you can see Osteopaths recognize the Mechanical rather than the Chemical as primary in the cause and cure of disease. He is, by his thorough education, the Master Body Mechanic. Scientifically and as painlessly, as the condition will permit, adjusting the spine and any other anatomical derangement in the curing of diseased conditions.

In order to aid in body elimination and thereby hasten cures in such conditions as Rheumatism, Neuritis, Neuralgia, Lumbago, Paralysis, Nervous Debility, La Grippe and all other toxic conditions I use, in connection with Osteopathy, electricity in the form of the Electric Cabinet Sweat Bath, the D'Arsonval Current and the Sinusoidal Current.

Tree as Nursemaid.
"The larch or tamarack, is the best
"nurse," said the forester, who was
busy planting a double line of little
larches on the edge of a new planta-
tion. He explained that the strong,
quick-growing larch was the best
tree to protect others from frost and
drought. "And if you are planting a
beech hedge," he added, "it will pay
you to plant white-thorn on the wind-
ward side, for the white-thorn will
protect the beech and can be cut back
later when it has served its purpose."

Misunderstanding.

dle what they do not understand,
and start at the good and beautiful
because it lies beyond their sym-
paties.—Goethe.

THE MARKETS

NEW YORK STOCKS

NEW YORK, May 4.—Steel shares were the central features at the opening of today's stock market because of the twenty percent wage reduction announced by the United States Steel Corporation after the close of yesterday's session. The first transaction of steel common was at 94½, but the price soon advanced to 95, an extreme overnight gain of ½ of a point. Independent steels were high by fractions to a point and some of the equipments and oils registered gains of like extent. Among specialties, tobacco, chemical and textile shares were moderately higher, but rails again lacked a definite trend.

Profit taking and pressure against food shares detracted from the general strength of the list in the first hour but prices rallied later under the impetus of a broad buying movement in rails. Junior issues, especially Baltimore and Ohio, Chesapeake and Ohio, Pittsburgh and West Virginia, Seaboard preferred, Colorado and Southern and St. Paul common and preferred rose 1 to 2 points. The better grade of rails, such as Reading, Union Pacific, Northern Pacific and Great Northern gained 1 to 1½ points. Baldwin Locomotive and American Car were stronger of the equipments and motor specialties of the rubber division made further substantial gains. Call money opened at 6½ percent the lowest initial rate of the week.

Trading in the stock market today was largely swayed by bull pool operations in oil and rails. The U. S. Steel wage reduction, also exerted some influence. Sales approximated \$20,000 shares.

The closing was strong.

David Butler in "Girls Don't Gamble"

A Spontaneous Comedy

Drama in Five Parts from the Sa-

turdine Evening Post Story by

George Weston. The Story of a

Young Farmer Who Has An Ambition

to Become a Mechanic. A Photo-

drama of Everyday Life. Also a

Special Attraction, Foot Gibson in

"Crossed Glances."

"Girls Don't Gamble" is one of the

hottest and pleasiest comedies now

on the market. It is more satisfac-

tory entertainment than many of the

big specials that are making such a

loud noise.

David Butler deserves credit for be-

ing such a modest star that he actually

chose a good story for his first

vehicle. His father, Fred Butler, also

should be praised for living in the face

of precedents and telling a natural

story in a natural way.

"Girls Don't Gamble" is an altogether

satisfying and humorous photoplay

unique in its treatment and novel in

its theme. "Girls Don't Gamble" was

adapted for the screen from the story

by George Weston under the title of

"Girls Don't Gamble Any More" which

ran in the Saturday Evening Post.

David Butler, is particularly good

as Jimmie Fisher, the hero truck driver.

There is plenty of action through-

out the picture and a love theme

which is both humorous and serious.

New Use for Seaweed.

Seaweed is made into a composition

to take the place of bone for handles

of cutlery.

HANNA'S GREEN SEAL PAINT

Where One Gallon Equals Two

Quality does tell! Measured by covering capacity and length of wear, one gallon of Hanna's Green Seal Paint proves itself equal to two gallons of so-called "cheap" paint. And there's a reason: viz., no paint can be better than the ingredients that go into it.

HANNA'S GREEN SEAL PAINT contains only highest grade ingredients, universally recognized as necessary in making good paint. If a paint is sold at a ridiculously low price it simply means that it is lacking in these necessary ingredients and contains cheap adulterants.

The exact formula is printed on every package of Green Seal.

LOUISVILLE ALL SET FOR DERBY

LOUISVILLE, Ky., May 4—Basing their estimate on reservations of past years, hotel keepers are of the opinion that the 1921 renewal of the Kentucky Derby at Churchill Downs Saturday will be witnessed by the largest crowd that ever saw a horse race in Kentucky. The greatest demands for reservations in the history of Louisville's hotels indicates, the hotel men say, that this year's Derby day crowd will exceed that of any other year.

Reservations indicate that practically every eastern and southern state and a number of the middlewestern and western states will be represented by the citizens Saturday.

Therefore, if a contestant has nineteen points he cannot get credit for a ringer, but only the necessary points required to bring his total up to twenty-one, even should he make a ringer, which, in that case, would count only two points.

3. A shoe that does not remain within eight inches of the peg shall not be entitled to score.

4. The closest shoe to the peg shall score one point. If both shoes are closer than either of an opponent's they shall score two points.

5. A ringer shall score three points. To be a ringer a shoe must encircle the peg far enough to permit straight rule to touch both calks and clear the peg.

6. A leaver shall score two points. To be a leaver a shoe must be supported by the peg and more than one-half of the shoe clear of the ground.
